

ROBOTICS & AI ACADEMY COMPLETE PACKAGE

1. Proposal Letter for Schools

Dear School Administration, We are pleased to propose the introduction of a Robotics, AI, and IoT Program for students from Grade 0 to Grade 10. This structured program develops creativity, problem-solving skills, logical thinking, and real-world technical exposure. Our curriculum is designed progressively: • Grade 0–3: Science fundamentals and basic electronics • Grade 4–5: Introduction to coding and simple robotics • Grade 6–8: Intermediate robotics and IoT systems • Grade 9–10: Advanced robotics, cloud systems, and AI concepts We provide complete project kits, trained instructors, exhibition support, and certification for students. We look forward to collaborating with your institution to build future innovators. Sincerely, Robotics & AI Academy

2. Certificate Format

CERTIFICATE OF COMPLETION This is to certify that _____ has successfully completed the Robotics & AI Training Program (Level _____) conducted during the academic year _____. The student has demonstrated skills in robotics, electronics, problem-solving, and innovation. Instructor Signature: _____ Academy Director: _____ Date: _____

3. Robotics Academy Name Ideas

- FutureTech Robotics Academy
- NextGen AI & Robotics Lab
- Innovate Robotics Institute
- STEM Robotics Nepal
- SmartBot Learning Center
- RoboMind Academy
- AI & Automation Academy
- TechFuture Robotics Hub
- Young Innovators Robotics Lab
- Digital Robotics Institute

4. Pricing Structure (Nepal Market Friendly)

Package	Target Grade	Monthly Fee (NPR)
Basic	Grade 0–3	1,200 – 1,800
Standard	Grade 4–8	2,000 – 3,000
Advanced	Grade 9–10	3,500 – 5,000
School Contract	Full School	35,000 – 80,000

5. Curriculum Summary (Grade 0–10)

Grade 0–1: Balloon Car, Magnet Car, Water Wheel, LED Basics Grade 2–3: Circuit Building, LDR Lamp, Buzzer Alarm, Obstacle Alarm Grade 4–5: Smart Dustbin, Line Follower, Bluetooth Car, Weather Station Grade 6–8: Obstacle Robot, WiFi Robot, Smart Home, RFID System Grade 9–10: IoT Cloud Robot, FPV Robot, GPS Tracker, AI Object Detection
